Lotus 3x9" & New Chevron

We spend a lot of time thinking about integrity of materials and timeless design. Our new Harmony Collection of glass tiles and mosaics represents the epitome of our craft in glass tile production.

Simple innovations and solid glazes conspire to create a seemingly simple yet wonderfully complex glass collection.

Presented in a progressive, elongated subway format and two distinct, angled mosaics - Harmony creates nearly limitless design options.

Bring some added Harmony into your next design to realize the limitless potential of your creativity.

INSTALLATION & MAINTENANCE

- ◆ Product is clear float glass with a glazed rear face. Due to the clear nature of the material some “shadows” may be visible at tile edge when viewed at an angle. This is not a manufacturing defect
- ◆ Inspect all product prior to installation for any visible defects or unacceptable color/shade variation. Claims are not accepted after installation
- ◆ Install using polymer or latex modified thin set mortars. Do NOT install using mastic and/or epoxy. Flattening trowel ridges is critical with slim glass
- ◆ Suggested grout width is 2mm
- ◆ For best results cutting, use a score & snap glass/tile cutter with a new cutting wheel. If necessary use a wet saw or angle grinder with a blade specifically designed to cut glass
- ◆ After cutting, smooth any rough or sharp edges with a diamond honing stone or pad
- ◆ Before grouting follow mortar manufacturer’s instructions to allow for full cure of thin set - usually 36 to 48 hours
- ◆ Grout only with non-sanded cementitious grouts. Using a sanded grout may scratch some surfaces
- ◆ After initial wash ensure all remaining “grout haze” is buffed off with a dry cloth before 24 hours have elapsed
- ◆ To clean use a damp sponge with warm water. For heavy cleaning use a non-abrasive cleaner with a damp sponge.

Bamboo 3x9” & New Chevron

TECHNICAL SPECIFICATIONS

| Technical Characteristics | ASTM Test Result | ASTM/ANSI Test Method |
|---------------------------|------------------|-----------------------|
| Water Absorption % | 0% | A 187.1 |
| Frost Resistance | Pass | C1026 |
| Chemical Resistance | Highly Resistant | |
| Scratch Resistance | 5.5 | MOHS |

PACKAGING

| Size | PC/CTN | Sqft/ctn (Sqm/ctn) | Carton/Pallet | Sqft/plf (Sqm/plf) | Lbs/ctn (Kgs/ctn) | Lbs/plf (Kgs/plf) |
|------------------------------|--------|--------------------|---------------|--------------------|-------------------|-------------------|
| 3x9” (76x230) | 51 | 9.71 (0.90) | 45 | 436.99 (40.60) | 31.97 (14.50) | 1,438.52 (652.50) |
| tapers 12x12” (304x304) | 16 | 16.16 (1.50) | 36 | 581.76 (54.05) | 44.09 (20.00) | 1,587.33 (720.00) |
| new chevron 12x15” (304x384) | 16 | 17.76 (1.65) | 42 | 745.92 (69.30) | 50.71 (23.00) | 2,129.67 (966.00) |
| trim 3x12” (76x304) | 48 | 11.94 (1.11) | 36 | 429.74 (39.92) | 36.38 (16.50) | 1,309.55 (594.00) |

NEW CHEVRON MOSAIC

Continuous Chevron -

When sheets are installed with top and bottom edges aligned, the textures flow seamlessly from sheet to sheet with the feel of sophisticated pinstripes.

Broken Chevron -

Conversely, each vertical course of mosaic can be offset from the adjacent one. This can be done in an alternating pattern or in completely random aspects breaking up the grout joints as well as the texture flow from sheet to sheet.

Long Wave Chevron -

Finally, alternating vertical courses of mosaic can be rotated 180° from the adjacent one. The resulting effect features a double wide Chevron pattern with a consistent mix of regular & irregular repetitions of grout lines and textures. Ideal for larger expanses or when a happy medium between the above two styles is desired.

GLOSSY

MATTE

TEXTURE

The New-Chevron format of Harmony mosaics takes the classic, well loved & well known chevron pattern to new heights of style and versatility.

The multiple angles, textures & finishes each reflect light in different ways and will offer a subtly different aesthetic depending on layout configuration. The repeating pattern allows for three distinct layout options each with their own distinct allure.

Trims -

The New Chevron mosaic also features an innovative trim piece for when a straight factory edge is required. The trims come pre-mounted as seen above to ensure perfect spacing every time. A simple cut of the mesh down the angled center joint (shown by dotted line) creates a top and bottom trim for each linear foot of mosaic.

TAPERS MOSAIC

GLOSSY

MATTE

TEXTURE

4" | 8" | 12" Accent Strip Capabilities -

Even though the overall aesthetics of the Tapers mosaic is angles, the design is such that it can easily be split into different width strips for accent features if desired. Each sheet is composed of regular rectangular modules.

A-B-A-B Layout -

When mirrored layouts are alternating, the overall effect is continuous grout joints and textures/finishes. Consecutive horizontal courses can either be in-line to emphasize regularity or offset to soften this effect.

Random Layout -

Vertical courses can be offset from adjacent ones if the desired aesthetic is to have a more broken effect. This can be done more or less as desired.

The Tapers format of Harmony mosaics puts a subtle twist on a traditional soldier-course strips mosaic. The simple addition of complimentary angles imparts a feeling of randomness & spontaneity to the strong linear style.

By employing two mirrored sheet variants, the format has capabilities to enhance either the organic feel or the strong linear style of the sheet.

Each carton contains pre-wrapped blisters of sheet variant A & B for easy ordering and planning.

Further, each sheet is labeled on a corner of the rear-face of the mosaic to help ensure that there is no confusion when installing on site.

Possibilities for coordination and subtle accents are only limited by the imagination. Weather your design requires regularity or spontaneousness to achieve perfect Harmony, these mosaic collections have the capability to fill whatever role is required.
