White 10

Cream 11

Black 29

Cream Bevel & Flat

Contrast never goes out of style. There is a reason why high & low contrast trillogy colors of black, white & cream are staples in tile.

With fashion as timeless as the city that never sleeps it could only be called Manhattan.

This robust collection of classic subway tile boasts every complimenting piece of trim you could ever need.

Available in multiple sizes and two distinct formats - Flat & Bevel -Manhattan Collection presents every solution for enduring style and class.

INSTALLATION & MAINTENANCE

- ◆ Ceramic wall tile is fully glazed with multiple coats of primer and glaze, creating an impervious surface for use in wet areas.
- ◆ Reserve material for breakage or plumbing repair should be kept from same production lot for replacements
- ◆ All products should be inspected prior to installation for any defects or unacceptable color/shade variation. Claims will not be accepted after installation
- ◆ Proper substrates, preparation and installation materials are required for a successful installation. For reference please see the TCNA D9300 Tile Handbook
- ◆ Recommended joint width is 2mm. Butt-jointing not suggested.
- ◆ Non sanded grouts are recommended for both high gloss and matte wall tiles
- ◆ Ensure all grout haze is buffed off before 48 hours have elapsed after installation
- ◆ Glazed tile should not be treated with a sealer for any reason
- ◆ To clean glazed ceramic wall tile, use a damp sponge with warm water. For heavy cleaning, use a non abrasive cleaner with a damp sponge
- ◆ Further warranty, best practices, care and maintenance details can be found on our website

TECHNICAL SPECIFICATIONS

Technical Characteristics	ASTM Test Result	ASTM/ANSI Test Method
Water Absorption %	≥10%	A 187.1
Dimensionality (flatness, warpage, straightness, etc.)	premium grade conformance	A 187.1 ISO 10545-2
Thermal Shock & Cracking Resistance	Pass	A 187.1 ISO 10545- 9/11
Resistance to Stains, chemicals acids, etc.	Pass	C650 & C1378 ISO 10545- 13/14
